In recognizing the immense benefits of collaboration to both academics and the non-profit and governmental community, the School of Business Administration (SBA) at Oakland University has established the Integrated Business Research Consortium (IBRC).

The mission of the IBRC is to link business theory and practice by advancing interdisciplinary thought to address key business challenges and/or specific business problems.

The IBRC gives you direct access to distinguished faculty from multiple disciplines within the SBA and among its affiliate institutions. It provides access to a broad group of consortium members with which to network, share best practices and address key business concerns that cut across individual firms and across industry segments. In addition, it provides access to the best minds in academia for solutions that impact business practice, while encouraging research that is relevant and cutting-edge.

Please accept this invitation to join this innovative consortium. Simply fill out the form below and return it to us.

If you would like to explore the benefits of membership, don’t hesitate to contact me at 248-370-3286 (Dean Mohan Tanniru) tanniru@oakland.edu or click here to view an in-depth brochure.
Integrated Business Research Consortium
Membership Form

I would like to contribute $10,000 to the Oakland University’s School of Business Integrated Business Research Consortium (IBRC).

This is a non-tax deductible contribution to support research proposed to address key business problems identified by the business research council.

I will be recognized as a member of the School’s Integrated Business Research Consortium and will receive all the honors and benefits that come with this membership.

The contribution can be applied to:
- Consortium membership
- White paper produced at the end of year
- Graduate student scholarship in support of the consortium’s research
- Specific research theme (see the list below)
- Research in any theme, as identified by the research council

Please send your check, with this printed form, to:
