

File Name: post_discharge_events_state_12.xlsx

Source: <http://www.dartmouthatlas.org/>

Description: Post Discharge events data by State and medical condition for 2012. Data include 30-day readmission rates, emergency room visits within 30 days of discharge, and follow-up visits within 14 days of discharge

Potential Usage: Identifying trends on readmission rates for states and medical conditions. Analyzing impact of readmission on hospital costs. Data can also be useful in understand readmissions and for research on readmission reduction.

Notes:

- Data available for 2008 to 2012 and also by HRR, County and Hospital.
- Additional information on data is available at http://www.dartmouthatlas.org/downloads/reports/Post_discharge_events_092811.pdf.
- Please contact Dr. Mohan Tanniru (tanniru@oakland.edu) for your inquires.

List of Fields:

Field Name	
State ID	
State name	
Number of patients in medical cohort (2012)	
Percent readmitted within 30 days of discharge (2012)	Rate
	Lower conf. limit
	Upper conf. limit
